

SPOxNFTs: Una herramienta de descentralización

¿Qué buscamos resolver?

Los SPO son los pilares de la descentralización en Cardano.

No todo el mundo tiene el conocimiento técnico o las capacidades para crear y administrar un Stake Pool de Cardano y a muchos SPO les falta tener visibilidad, muchas veces la falta de exposición los hace tener que retirar sus pools.

Actualmente, 1356 de 3184 pools tienen menos de los 2 millones de ADA en delegación activa necesaria para mantener sus pools a largo plazo. Necesitamos que las pocas personas que tienen los conocimientos para operar pools tengan las herramientas adecuadas para prosperar.

Conectando a SPOs y Aliados

Esta plataforma brindará tanto a los operadores de stake pool como a los proyectos de NFT o ballenas la capacidad de promover delegación a una pool en particular y compartir las recompensas del SPO de manera justa y personalizada.

Radiografía de Proyectos NFT

En cardano hay más de 54K colecciones de NFTs con 6, 387 proyectos verificados.

Los proyectos NFT realizan dinámicas promocionales constantemente. No les costaría nada crear alianzas con SPOs e incentivar a sus "holders" a delegarles. Por el contrario, con ADA LINK recibirían recompensa por ello.

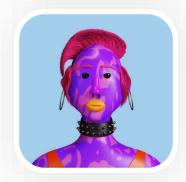

1.2M

Zi "First Arrivals"

1,289,167.900965 ADA en wallets de "holders".

*Data recopilada el 11 de Julio de 2022

9.5M

Ugly Bros S1 y S2

UB S1 -> 3,761,449.959347 ADA en wallets de "holders".

UB S2 -> 5,787,982.828564 ADA en wallets de "holders".

*Data recopilada el 11 de Julio de 2022

8.8M

Disco Solaris

8,850,794.281311 ADA en wallets de "holders".

NFT Ally (First Ally)

Number of New Wallets: 800 Wallets

Total ADA from new delegators: 2.5m ADA

Initial State [0]

Staked ADA: 500k ADA

Margin: 2%

Average Blocks/Epoch: 0.4

Average Blocks/Month: 2.6

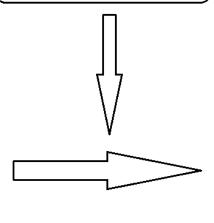

*calcualtion at 100% luck

SPO Rewards

Average SPO Rewards/Epoch: 140 ADA

*Pool does not mint a block in some epochs

State [1]

Staked ADA: 3m ADA

Margin: 2%

Average Blocks/Epoch: 2.6

Average Blocks/Month: 15.5

*calcualtion at 100% luck

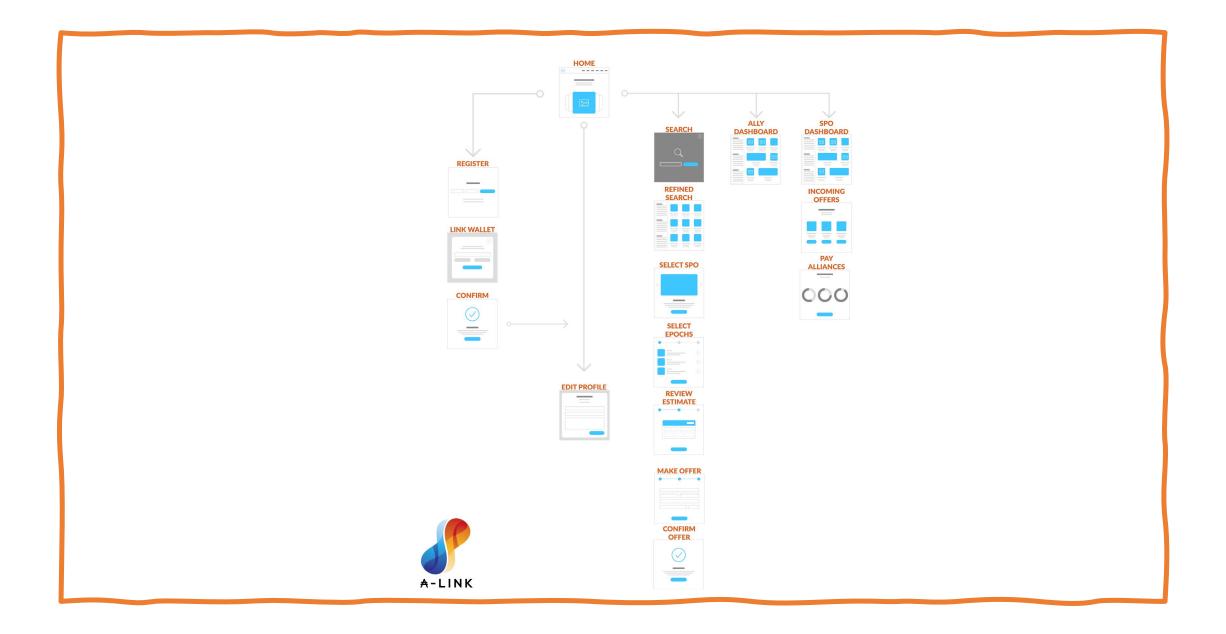

SPO Rewards

Average SPO Rewards/Epoch: 345 ADA

*Pool is guranteed to produce blocks

Ally Rewards

Average Rewards/Epoch: 27 ADA

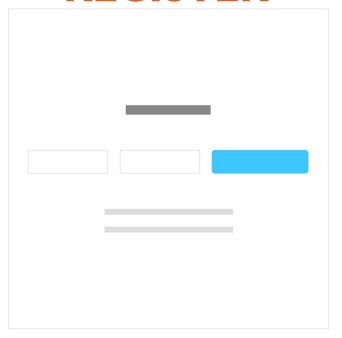

LINK WALLET

CONFIRM

REGISTER

- Users will be able to register an account with:

 Pool ID and Reward Receiving Wallet Address
 NFT Policy ID and Royalty Receiving Address
 Any wallet holding 1M ADA or more

LINK WALLET

Users will be able to link a secondary wallet for ease of use.

• Whales and NFT Allies can opt to receive their rewards to this address

LINK WALLET

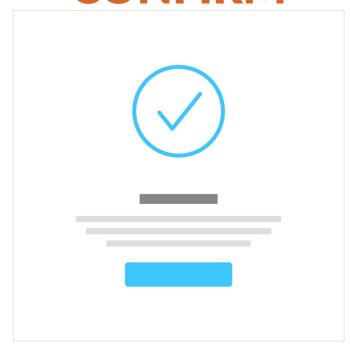

CONFIRM

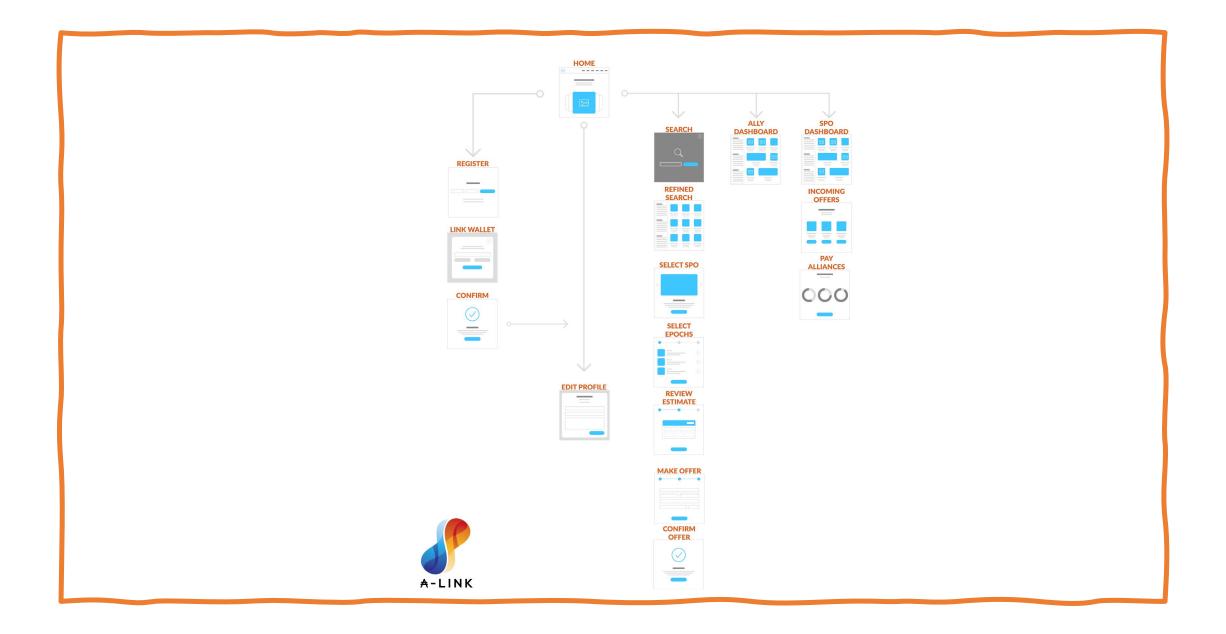

CONFIRM

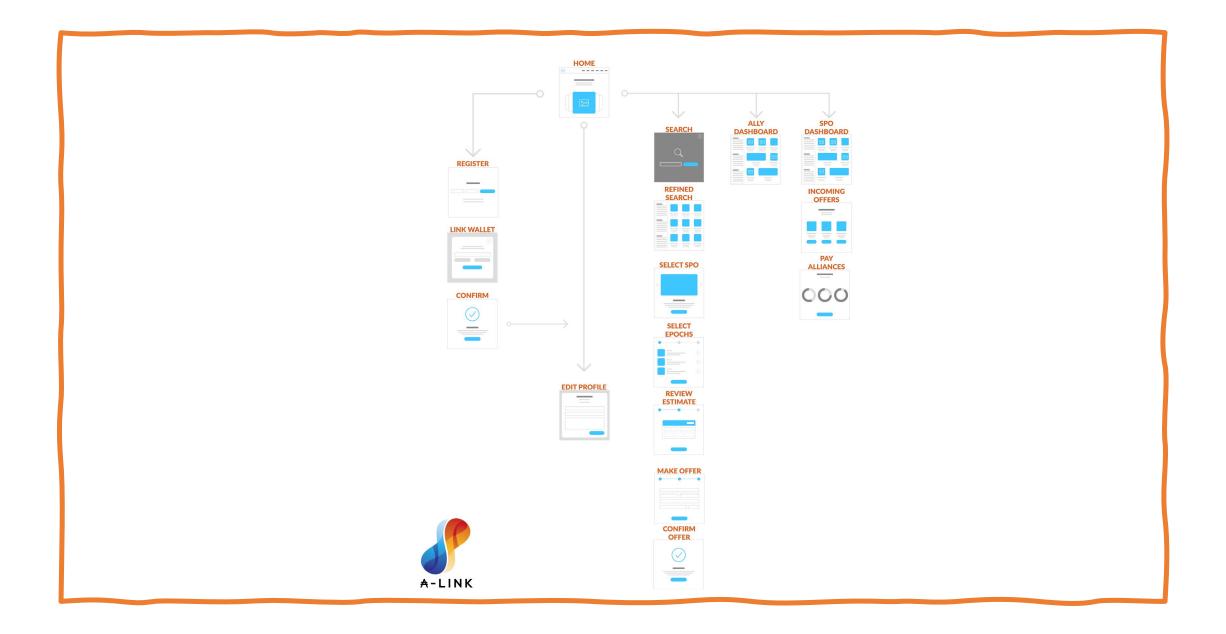

Users will receive confirmation once the wallets have been verified.

USER DASHBOARDS

- Shows allience status for each policy ID
- Shows detailed information about each SPO alliance (in case of several policy IDs).
- Shows outgoing offers
- Feature of removing ended alliances.
- Feature of showing rewards status of current alliences: e.g. received, pending, overdue.

- Shows general information about stakepool
- Shows a summary of the current allies
- Shows incoming offers from allies
- Shows detailed information about alliences
- Feature of removing ended alliances
- Feature of paying rewards to a specific ally or to all current alliances. The transactions will be generated automatically, the SPO just needs to sign
- Feature of sending a tip to an ally

- Shows allience status for each wallet
- Shows detailed information about each SPO alliance (in case of several wallets).
- Shows outgoing offers
- Feature of removing ended alliances.
- Feature of showing rewards status of current alliences: e.g. received, pending, overdue.
